

LOGNET GLOBAL

10th ANNIVERSARY CONFERENCE

NETWORKING AROUND THE WORLD

Attending a Lognet Global conference is undoubtedly the single most productive way to boost your revenues, expand your company, reach out to new markets and raise your company's profile around the globe.

Lognet Global conferences offer a golden opportunity to each and every member, whether building on existing relationships or creating new partners.

With 40+ pre-arranged meetings You can conduct more productive business at a Lognet Global Conference than could be achieved in several months of business travel. Also the informal nature of the social functions allows members to share ideas and discuss potential opportunities in a relaxed and enjoyable environment that creates both strong and longlasting friendships.

WE ARE LOGNET GLOBAL. ONE VISION. ONE NETWORK.

Lognet Global members form a truly unique group of professional and dynamic companies with a common vision:

"To provide comprehensive and competitive logistics solutions in all major markets around the world - but with the local expertise and personal approach that can only be provided by independently owned small and medium sized freight forwarders."

HOW IT WORKS

“ EVERY single member of Lognet Global enjoys the luxury of conducting business with any other member company with complete confidence, security and peace of mind – thanks to Lognet Global’s Gold Medallion Financial Protection Plan ”

UP TO US\$3,000,000 IN FINANCIAL PROTECTION

With each and every other Lognet Global Member

A central pillar of Lognet Global's comprehensive range of member benefits, simply no other network in the world can match the range and depth of coverage offered by the Gold Medallion Financial Protection Program. Each new member undergoes full background checks and financial auditing before they become an enrolled Lognet Global company.

Lognet Global's Gold Medallion Financial Protection Plan offers each individual company a member to member financial guarantee for claims up to US\$100,000. Thanks to Lognet Global's financial stability we are able to offer combined total of **US\$3,000,000** per annum protection for the membership. Beware of

networks that claim to offer financial protection, but only offer it at considerable additional cost, or offer very limited protection - for example covering bankruptcy only.

Lognet Global's program offers coverage for nonpayment issue, subject to terms & condition of the program - and this is included in the price of membership.

The Gold Medallion Financial Protection program provides the mechanism that allows our members to do business without hesitation - making them more efficient and effective and preventing wasted time and expense on background or credit checks.

GOLD MEDALLION PROGRAM

- › Unrivaled member-to-member protection of US\$100,000 per claim in network and US\$25,000 cross-network
- › Financial security allows ease of business with any affiliated network member (WCA, GAA, EGLN)
- › All claims paid promptly
- › Full checking and financial auditing of all members

CAUTION

We hate to deny a claim under any circumstance however these are the two most common causes for denial:

- **CLAIMS ARE TIME-BARRED**

They are not submitted within the parameters of the Gold Medallion Plan – between 90 and 150 days from invoice date.

- **MEMBERS HAVE USED AN UN-ENROLLED OFFICE**

You need to ensure that the particular OFFICE that you are using as your freight partner is registered and enrolled otherwise they are not covered under the Gold Medallion Plan.

WCAworld QUOTATION SYSTEM

Send and Receive RFQs between Members

WCAworld Quotation System is a FREE member-only platform that allows you to send and receive RFQs with fellow members worldwide.

The most important factor of quality RFQ is to be as specific as possible. Detailed RFQs allow partners to prepare accurate quotes that minimize the potential for cost overruns on any services that don't meet your requirements. The WCAworld Quotation System will ensure all parties know exactly what each other wants and be able to offer a reasonable price quote. The system also allows you to evaluate different partners' value because sourcing a part is not just about the price.

WCAworld Quotation System is very easy to use, helps you get an accurate quote faster, cuts down on the back-and-forth emails, skips the member verification process, and avoids the payment term problems. With over 850 RFQs generated in the first month of launching, it's proven that the system helps members secure new businesses around the globe with new partners they perhaps may not have considered in the past. The WCAworld Quotation System is FREE and exclusive to WCAworld members only. Join fellow members and activate your account today.
